

## Project Purpose

The annual Pavement Management Program will maintain roadways during their useful life. Current maintenance procedures include curb and gutter replacement, crack sealing, slurry seals, and mill and overlays.

## Project Description

In an effort to maintain quality roadways, the City of Lenexa takes a proactive approach to pavement maintenance. Using the GBA Street Master Pavement Management Program, we are able to evaluate alternative maintenance techniques such as crack sealing, slurry seal, and mill and overlay to create a cost-effective program.

## Location

Various locations throughout Lenexa

## Designer

In-house

## Contractor

To be awarded to the lowest, qualified bidder.

## Construction Timeline

2015 - 2019

## Total Cost

\$25,049,166
